RESISTENCE	:: Calculated from armor + Natural Skin
PACE	:: 10
MOVEMENT	:: Agility Bonus * 2
ESSENCE	:: Focus Level + WPB + Race Essence

PASSIVE STATUS CHECKS

When you stay idly, and an enemy does something that requires a check of your passive status, you apply extra difficulty to their roll. Passive Statuses are your normal stat bonuses - 2.

Strength : Passive stiffness, rediness on taking action.
Agility : Reflexes.
Toughness : Physical integrity, sturdiness.
Inteligence : Perception, mental track of events and environment.
Charisma : Soical awareness, composure and gut feeling.
Will : Spiritual composure, overall drive and vision.

Let' Lets say you have 45 INT. Soembody trying to sneak around you would get -2SL to their roll. Someone trying to break your bone while you're dazed out must take your THG Passive Status to their Strength roll. If somebodys trying to charm you by lying, they have to pass your passive charisma. If a spell taking you into their will, passive WP. If somebodys trying to push you, they must pass passive STR. Lastly, if they try to catch you off guard, WHILE you're looking at them, show your reflex with your passive AGL.

SKILLS

You have 4 skill slots for each level of skill, meaning you can only have 4 skills on the same level at a time. If you have 4, 1 level skills, you have to level one up to open room.

AGL / STR	**Acrobatics**	Elaborate physical actions like rolling, backflipping or walking on a thin rope.
