OPENING YOUR CHARACTER

Opening a character, you should first pick your species. Then roll for your stats according to its the addions. You can place the rolled numbers on which stat you like.

If you have a solid background and character in mind, take the keywords talking with the GM. If you want to, you can roll for them to get extra starting XP. Eigher way, you can only take the amount specified on your starting tier at this stage.

Then you will be given XP and Wealth depending on your tier. Spend the XP to increase your skills, stats or buy additional keywords. You can spend your gold to get starting equipment. Or if you choose so, start naked and have that amount of gold on you.

For progression expectation, you should be getting +1000xp every 5-10 sessions depending on your game tempo and campaign tone. Spend the XP on skills or Attributes however you like, but for the Keywords, you must reach the tier threshold in total xp.

Starting XP and KW Threshold per Tier

TIER	XP	Keywords	Wealth	Explonations
1	3000 Xp	6 Keywords	1G	ORDINARY FOLK :: A completely mundane individual. Perhaps a villager grasping a pitchfork, a petty thief, a city watch recruit, or an untested preacher. Traders, pilgrims, or wanderers who have barely stepped outside their comfort zone.
2	6000 Xp	9 Keywords	3G	PROMISING SOUL :: Someone who has just begun to step beyond the ordinary. A scout who has seen danger, a traveler who's wandered past the borders, a merchant starting to understand real risk. They've tasted the larger world but haven't yet shaped it.
3	10.000 Xp	12 Keywords	10G	AN ADVENTURER :: A capable and tested individual. A soldier hardened by battle, a scholar whose hands are ink-stained with real discovery, a leader who has faced hardship. They've grown past the average person and begun to master their path. They can survive — and thrive — in harsh and strange places.
4	15.000 Xp	15 Keywords	30G	A HERO OF RENOWN :: Respected, recognized, and often spoken of. A commander trusted with a city's fate, a mage whose spells protect entire regions, a trader who influences markets. Their presence shifts outcomes, and people know their name even beyond their homeland.
5	22.000 Xp	16 Keywords	100G	A LEGEND OF THE REALM :: A person whose deeds have carved lasting marks on their world. A general whose tactics are studied, a diplomat whose words averted war, a relic hunter whose finds changed history. Their name echoes through multiple lands, and their legacy begins to outlive them.
6	30.000 Xp	17 Keywords	250G	A BEING BEYOND :: A mortal whose story is told like legend. Kingdoms shift at their advice, wars end at their arrival. They are heroes whose actions shape the age they live in — bladesingers, master tacticians, sages of ancient power. They are not divine, but their names are remembered as if they were.
7	50.000 Xp	18 Keywords	1.000G	A GOD AMONG MEN :: A mortal whose story is told like legend. Kingdoms shift at their advice, wars end at their arrival. They are heroes whose actions shape the age they live in — bladesingers, master tacticians, sages of ancient power. They are not divine, but their names are remembered as if they were.
